Twickenham Riverside Terrace Group

We congratulate the new Richmond Council Leader, Councillor Serge Lourie, on confirming that the new Council will honour the recommendations of the Government appointed Inspector on the use of the Twickenham Pool site.

These include the provision of Public Open Space as the predominant immutable feature of any future scheme, the provision of Public Toilets and adherence to the conservation nature of the site.

We ask you to give an undertaking that the existing Children's Playground and Cafe be kept open up to and beyond 2009 and that 23 years of total neglect will be brought to an end by restoring the whole site to use as Public Open Space.
